

Sea Culture
is Key

Company profile & K-Qualities

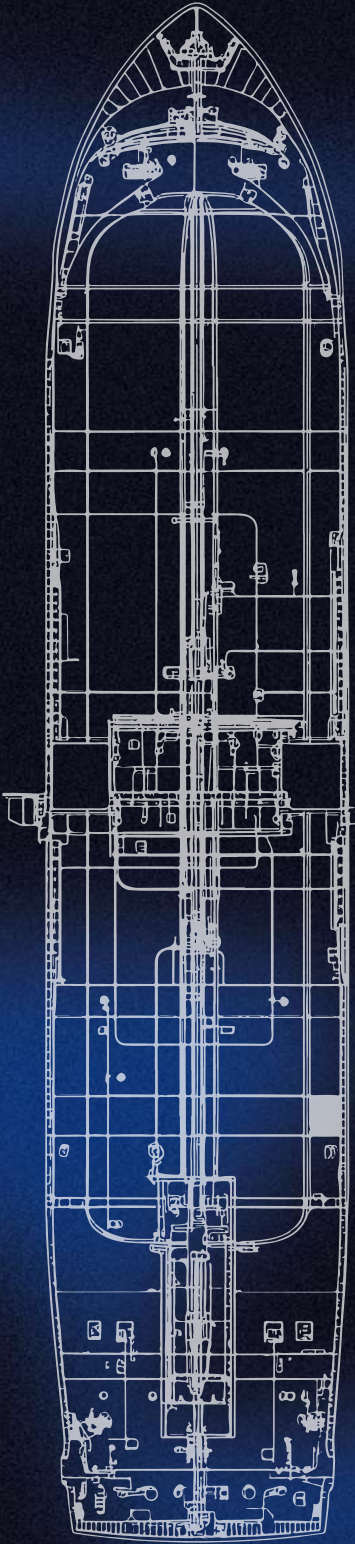

K-Ships is not just a typical maritime company; it's a 360-degree maritime powerhouse, offering a comprehensive range of services that set it apart in the shipping industry.

Our core competency lies in **ship management**, where we excel in overseeing a diverse fleet of oil and chemical tankers, bulk carriers, as well as other ships such as ferries and barges.

What distinguishes us is **our holistic approach to maritime solutions**. With a deep-rooted heritage in naval design, we bring a **unique perspective** to the table, enabling us to provide unparalleled expertise in new buildings, major conversions, refittings, and more.

Moreover, our strategic location in both **Genoa and Messina** allows us to leverage our proximity to key maritime hubs, ensuring swift and efficient service delivery to our clients worldwide. Whether it's ensuring the safety and efficiency of vessel operations or designing innovative solutions to meet evolving industry demands, **K-Ships stands ready as a one-stop destination for all maritime needs.**

Why choose K-Ships?

Expertise

Decades of industry experience and a team of seasoned professionals.

Innovation

Commitment to integrating the latest technologies and innovative solutions.

Quality

Rigorous standards and attention to detail ensure the highest level of service.

Sustainability

Focus on eco-friendly practices and sustainable solutions.

Our Services

TECHNICAL SERVICES

- **Tech consultancy:** expert advice on maritime technology to enhance your vessel's performance and safety.
- **Tech supervision for new buildings:** oversight and guidance during the construction of new vessels to ensure adherence to the highest standards.
- **Major conversions & refittings:** comprehensive solutions for upgrading and modifying existing ships to meet new requirements.
- **Special projects & ship recycling:** management of unique maritime projects and eco-friendly ship recycling processes.

NEW BUILDING

- **Procurement:** we provide clients with a ranked list of top suppliers for each component, selected based on rigorous research and evaluation.
- **Supervision:** continuous oversight throughout the building process to ensure quality and compliance.
- **Collaboration for innovation:** partnering with industry leaders to integrate cutting-edge technologies and innovations into new builds.

NAVAL DESIGN

- **Basic & detailed design:** comprehensive design services, from initial concepts to detailed plans.
- **Experienced team:** naval architects leverage firsthand experience from our superintendents and crew members to create practical and effective designs.

OUR CORE BUSINESS

SHIP MANAGEMENT

At K-Ships, not only do we care for your ships as if they were Our Own, but we also manage them with a “**Sea Culture is Key**” approach. This means that the **principles, traditions, and practices of maritime life are central to our core business**. We emphasize the importance of maritime heritage, Seafarers, safety, and respect for the sea in every aspect of our ship management services.
